

CAD TECH/REVIT DRAFTING SERVICES

Great Hall Builders (GHB) is inviting qualified firms, especially MWBE firms, to participate in the Request for Qualification (RFQ) for the CAD Tech/Revit Drafting Services for the Denver Great Hall remodel project (remodeling of Jeppesen Terminal).

Scope of Work

Consultant will:

- Perform advanced and specialized drafting (2D and 3D) to support design activities
- Develop graphic presentations that include design features
- Prepare layouts, drawings and designs, from detailed sketches and/or drawings made by technicians, designers or technical professional, converting paper documents into computerized files. Calculate quantities
- Use automated programs, interactive graphics and design/construction information systems
- Review work provided by others for drafting and calculation errors
- Review and revise documents to include engineering notes, specifications, standards and procedures in drafting plans and in preparation of plans, specifications and estimates
- Assist in coordinating office operations

Requirements

- Must be proficient in manipulating drawings, plotting, using reference files and utilizing surveying files (ortho photos, DTM, etc.)
- Advanced and specialized drafting
- AutoCAD and Revit knowledge required
- Knowledge of and experience working with BIM Software and Navisworks
- Knowledge of and experience working with ADOBE Photoshop, SketchUp, Adobe InDesign, or other similar programs.
- Airport experience is preferred but not required
