June 2016

## DEN's 2016 Summer Interns

*In its fifth year, DEN's education program has evolved to provide more hands-on, intensive learning experiences. The photo show intern orientation, which ran three days,*

### **Students learn on the job**

DEN's latest crew of summer interns have arrived! Selected from over 1,100 applicants for 14 positions in seven different areas, this year's group tends to be older and brings diverse experiences. A few fun facts:

- Two interns are military veterans (one served on an aircraft carrier and the other was an Army Ranger)
- Two (a male and a female) went to the Colorado high school state championship tournament in golf three times
- One became a new father in May
- One is fluent in Portuguese and another is fluent in German
- One intern is a second-degree black belt in Tae-Kwon-Do while another plays Division 1 Ultimate Frisbee competitively
- One is a Shakespeare buff and another plays the piano

In its fifth year, DEN's education program has evolved to provide more hands-on, intensive learning experiences. Intern orientation ran three days, focusing on the City and County of Denver as an employer, including a visit to the Webb Building and other city buildings, offering an airfield tour with interns from other city agencies, and provided three sessions about individual career development. At the final event, Kim Day and the executive leadership team dropped in to welcome the interns. One intern learned he attends Kim's alma mater, and all learned that Eric Hiraga began his career in Denver city government as an intern.

The summer internship program runs from June 1 – August 12. Here is a list of this year's summer interns and a couple new year-round interns – please welcome them and share your passion for the airport with them!

<b>Intern</b>	<b>Major</b>	<b>College</b>	<b>Office</b>
Sean Dohoney	Aviation Technology	Metro State University of Denver	Airport Security
Jared Thill	Mechanical Engineering	University of Denver	Airside Engineering
Samantha Lockwood	Architectural Engineering	University of Colorado Boulder	BIM
Holden Southard	Quantitative Finance	University of Colorado Boulder	Accounting
Bruce Ahn	Hotel Administration	Cornell University	Finance Planning and Analysis
Stephanie Watson	Finance	University of Oregon	Fiscal Policy
Marissa Bell	Environmental Health Masters Program	Colorado State University	Environmental Services
Jake Carlson	Airport Management	Kansas State University	Facility Maintenance Management
Matt Lindsey	Civil Engineering	University of Colorado Denver	Landside Engineering
Marco Meyer	Graphic Design and Media	Creighton University	Global Communications and Marketing
Tope Dawodu	Computer Science	Regis University	Technologies Asset Management
Trent "Happy" Waggoner	Computer Science	University of the People	Technologies Project Management
Evan Berg	Computer Science	Luther College	Technologies Service Desk
Samantha Salazar	Business Administration	University of Colorado Boulder	Commerce Hub
(will be working year-round and assisting with the intern program)			
Benjamin Walton	Marketing (year-round)	University of Denver	Global Communications and Marketing

### **DEN's Project LIFT**

Denver International Airport, in conjunction with the Airport Minority Advisory Council (AMAC) Foundation, is offering Project LIFT (Leaders Inspiring Future Talent) to high school students in Northeast Denver to explore aviation careers.

Students participating in Project LIFT will tour DEN, hear from airport executives, and job shadow with a college intern. **There is no cost to attend and lunch will be provided** (see link below to register).

*Note: Transportation to and from the airport is not provided, however students may ride the A line commuter rail for the one-time cost of \$4.50 per day.*

The AMAC Foundation works alongside AMAC and is dedicated to advancing minorities and women pursuing careers in the aviation industry. The Foundation develops educational programs, scholarship and mentorship opportunities, and shares information to support aviation and airport industry professionals, from college students beginning their careers to seasoned professionals.

## Building for the Future

The Airport Infrastructure Management (AIM) Division Capital Improvement Program was held on June 23, 2016, at the Renaissance Denver Stapleton Hotel, Denver, Colo. This outreach event brought together a diverse blend of potential prime contractors and potential subcontractors, including certified firms. The event's purpose was to provide an overview of DEN's robust \$2 billion capital improvement program. Throughout the event, AIM had 16 subject-matter experts share their knowledge with the 361 attendees of the event.

The main objectives for the attendees were the following:

- To provide a clear overview of this multiyear program that includes projects comprising airside, landside and terminal work
- To share knowledge and common practices with others considering a response to a request for proposal

Overall, it provided information pertaining to the upcoming capital improvement projects and highlighted best practices for responding to a request for proposal. Specifically, the outreach event focused on the general goods and services portions of the CIP projects, discussion of the conflict matrix and a general understanding of obtaining Minority/Women Business Enterprise (M/WBE) and Disadvantaged Business Enterprise (DBE) certification. In addition, the outreach event provided an opportunity for several of the large potential primes to network one-on-one with a variety of potential subcontractors from a wide range of disciplines for potential future partnerships. The format included a general session, working lunch and exhibit hall.

*Denver International Airport provided an overview of its robust \$2 billion capital improvement program at an outreach held June 23 and attended by more than 360 people mostly representing prime contractors and potential subcontractors.*

## **Denver International Airport Names Darryl Jones Chief Real Estate Officer**

### **Will lead continued airport development and economic expansion of the DEN Real Estate Program on 17,000 acres**

Denver International Airport today announced the appointment of Darryl M. Jones as its chief real estate officer. As one of five executive vice president positions at the airport, Jones will be responsible for leading the continued development and economic expansion of the airport's real estate program on 17,000 developable acres. This property includes the transit-oriented communities adjacent to the commuter rail stops at 61st Avenue and Peña Boulevard and 40th Avenue and Airport Boulevard, and the 1,500-acre commercial-use pilot program established between Denver and Adams County and ratified by the voters last November.

Jones, who will begin his new position at the airport on June 27, has a long history of serving in leadership roles in real estate, planning and development, with both public and private sector organizations over his 28- year career. With a background as a city planner, he has extensive knowledge in real estate development, regulation, urban design, planning processes and planning development.

He comes to DEN from the Coventry Development Corporation where he served as vice president and development manager. Since 2004, he has managed and directed major land planning and development projects in Colorado, Florida and Texas. These projects include the RidgeGate development in Lone Tree, Colo., Springwood Village and Baybrook in Houston, Texas, and Hobe Grove in Martin County, Fla.

Jones previously served as the director of planning and government affairs for Oakwood Homes and as planning manager for the Community Development Department of the City of Greenwood Village, which is the position which brought him to Colorado in 1998. Prior to his time in Colorado, he held positions in planning and zoning for the cities of Boston, Mass., and Santa Cruz, Campbell and Mountain View, Calif.

Jones holds a master's degree in city planning from the Massachusetts Institute of Technology in Cambridge and a Bachelor of Arts degree in landscape architecture from the University of California, Berkeley. He is currently serving as the president of the Schweiger Ranch Foundation board of directors and is a member of the Greenwood Village City Council.

"After a nationwide search to find a professional with the right mix of planning, development and political experience, we are delighted to welcome Darryl Jones to the DEN team," said Kim Day, CEO of Denver International Airport. "His knowledge of the region and experience with large real estate projects will enhance the ability for Darryl to lead our efforts to optimize the revenue potential of airport property and to collaborate with our adjacent municipalities and property owners to ensure efficient infrastructure investments and coordinated land uses, and to stimulate regional economic development."

## **Denver International Airport Offers Tips for a Smooth Summer Travel Experience**

With the busy summer travel season underway, Denver International Airport is providing a number of services and tips that will help passengers have a smooth traveling experience. The airport has seen eight consecutive months of record-setting passenger traffic, and the summertime is historically the busiest time of the year.

The July 4th holiday week is especially busy, and this year the airport is projecting record-setting traffic with about 1.2 million passengers from June 28 through July 4—about 13 percent more than the same time last year. Thursday and Friday are expected to be the busiest days during this time period, with more than 180,000 passengers each of those days, compared with DEN's average daily traffic of

148,000 passengers. The airport projects the busiest times at the TSA screening checkpoints to be from about 5 to 10 a.m., and from 1 to 4 p.m. Passengers are encouraged to arrive early.

### **Top-Five Travel Tips**

- Arrive at the airport early! DEN generally recommends being at the airport and at the TSA screening area at least two hours prior to boarding time. Add in some additional time for parking or passenger drop-off, airline check-in and baggage check services as needed.
- Skip the traffic and use the University of Colorado A Line commuter rail, offering a direct link from Denver Union Station to the airport in just 37 minutes (\$9/day).
- Driving? Check [flydenver.com](http://flydenver.com) for the latest, real-time information about parking availability in all airport lots. The Pikes Peak and Mt. Elbert shuttle lots are just \$8/day and are one of the most popular choices for summer vacationers. Short-term parking is available in the East and West garages for \$4/hour. This area is intended for passenger pick-up and drop-off. Guarantee yourself a garage parking space by reserving one ahead of time at [www.DIAReservedParking.com](http://www.DIAReservedParking.com). Reservations can be made up to one year in advance and cost just \$4/day in addition to regular garage rates. The airport offers free vehicle services for its customers, including jump starts, tire inflation, and car key retrieval if they've been locked in your vehicle. For any of these services, call (303) 342-4645, 24 hours a day, seven days a week.
- Plan ahead for security screening by knowing the TSA rules for liquids, gels, aerosols and carry-on items. Travelers may bring one carry-on bag and one personal item (purse, laptop, etc.) through security. Put medications and other required items in your carry-on bag.
- Expedited screening is available if you are a TSA Pre✓™ member. Passengers can sign up for TSA Pre✓™, which costs \$85 for five years, following an application process inside the Jeppesen Terminal application center, located on the east side of Level 5, near the south screening checkpoint.

## Delta Continues to Invest in Denver International Airport with Opening of Sky Club

Delta Air Lines and Denver International Airport are proud to announce the opening of a new Delta Sky Club on the A Concourse.

The Denver club—located just across the pedestrian bridge leading from the Jeppesen Terminal to Concourse A—features more than 4,600 square feet of relaxation and about 90 seats. The club includes art from local galleries, complimentary New Belgium Ranger craft beer and Starbucks coffee, in addition to many other amenities.

“Delta’s decision to invest in a new lounge at Denver International Airport underscores the carrier’s continued commitment to the Denver market and the airport,” said Mookie Patel, DEN’s senior vice president of airline affairs and commercial property. “Delta has also increased its seat capacity at DEN and will offer nearly 50-percent more flights in July compared with the same time just two years ago.

The new Delta Sky Club is part of a global investment by the airline. For more than two years, Delta has been actively renovating, reinventing and revitalizing the 50 Delta Sky Clubs around the globe. Delta also recently increased its Denver flight schedule, adding five daily flights to Los Angeles. “Denver is an emerging market for service in the western U.S.,” said Claude Roussel, managing director – Delta Sky Club. “Opening a new Delta Sky Club combined with increasing service earlier this month means our guests are assured of having a more productive and pleasant travel experience, giving them another reason to fly Delta.”

Delta Sky Club memberships are available at [www.delta.com](http://www.delta.com). Single-visit passes are available for purchase at the check-in desk.

*A new Delta Sky Club opened on the mezzanine level of Denver International Airport's Concourse A subcore. The entrance to the club is located at the north end of the pedestrian bridge between Jeppesen Terminal and Concourse A.*

## **Future Opportunities — DEN Projected Competitive Contracts**

Denver International Airport is committed to a strong partnership with our business community and to ensuring local businesses have viable opportunities in building DEN's future. The City and County of Denver and DEN procurement procedures are designed to be fair and transparent and to allow competition to thrive.

Below is a preview of upcoming business opportunities by type of procurement at DEN in advance of their formal advertisement. The required Future Opportunity posting duration may range from a 30-day or 90-day posting. The City and County of Denver Small Business Office will assign appropriate M/WBE/DBE/SBE or ACDBE goals and other requirements to each contract when advertised per the construction and purchasing ordinances adopted in 2014. Any applicable goals will be in the project description.

Visit the DEN Commerce Hub:

<http://business.flydenver.com/bizops/commercehub.asp> to learn how to initiate a partnership with DEN and the City and County of Denver on future projects. This information will be updated regularly.

DEN reserves the right to cancel or alter project information at any time.

**Project: 0308A (2016) HVAC Chemicals for DEN**

**Description:** HVAC Water Treatment Chemicals for Denver International Airport. No GOALS assigned, Independent Partnership. Buyer: Shannon Sprague (303) 342-2184.

**Anticipated Advertisement Date:** June 2016

**Estimated Project Value:** TBD

**Date Posted:** June 13, 2016

**Project: 0318A (2016) Portable Toilet Rental Citywide**

**Description:** Portable toilet rental citywide, include Parks, Golf, Denver International Airport, and Public Works. Not subject to S/M/WBE Ordinance. Buyer: Curtis Subia (303) 342-2113

**Anticipated Advertisement Date:** July 2016

**Estimated Project Value:** TBD

**Date Posted:** June 13, 2016

**Project: 0568A (2016) Fuel**

**Description:** Fuel (Unleaded and Diesel) for City operations. Not subject to S/M/WBE Ordinance. Buyer: Curtis Subia (303) 342-2113

**Anticipated Advertisement Date:** July 2016

**Estimated Project Value:** TBD

**Date Posted:** June 13, 2016

**Project: 2016 MEP On-Call Design**

**Description:** On-call mechanical, electrical, and plumbing (MEP) design services for miscellaneous Mechanical, Plumbing, and electrical engineering issues and projects that arise. The projects could include airfield lighting, general lighting and power upgrades, controls upgrades, and HVAC/plumbing upgrades. All projects will be completed by individual task order.

**Anticipated Advertisement Date:** August 2016

**Estimated Project Value:** \$2,000,000

**Date posted:** May 13, 2016

**Project: Asphalt and Concrete Recycle Facility Management**

**Description:** This project is for the management of the two asphalt and concrete recycling yards located at DEN. The operator will operate and maintain two sites located on DEN property for the purposes of recycling asphalt and concrete removed from and then used on project at DEN. Sales to third parties will be allowed under the contract. This project has been reviewed by DSBO and it has

been determined that it is not subject to the DSBO ordinance and therefore will not have a goal assigned for this opportunity.

**Anticipated Advertisement Date:** August 2016

**Estimated Project Value:** \$2,500,000

**Date Posted:** May 2016

**Project: BHS Enabling Project for TSA Relocation RFP**

**Description:** This will be an on-call construction contract. It is intended that the majority of the contract capacity will be used to construct equipment platforms in the Jeppeson Terminal below the current ticket counter areas and above the ceiling on Level 5 on the east side and in Module 1 of the west side. There are existing equipment platforms in Modules 2 west and 3 west that will need to be connected to the new platforms. Baggage conveyor systems will be installed on these platforms to accommodate an anticipated remodel of the ticket counters. The work will require multiple phasing and terminal operations must be maintained during construction. There is a 15-percent DBE goal established for this opportunity.

**Anticipated Advertisement Date:** June 2016

**Estimated Project Value:** TBD

**Date Posted:** May 31, 2016

**Project: Common Use Lounge**

**Description:** Denver International Airport (DEN) is seeking a Common Use Lounge Operator to provide the design, construction, maintenance and operation of a full-service passenger lounge to meet or exceed the traveling public's expectations while traveling through DEN. The Airport has identified 8,348.7 total square feet of space on A Concourse as the location of the Common Use Airport Lounge, consisting of two different spatial areas; approximately 7,251.5 sq. ft. will be dedicated to the Common Use Lounge and approximately 1,097.2 sq. ft. will be used as a private Airport-controlled lounge with service provided by Operator. It is the intent of the Airport to enter a separate expenditure agreement with the Operator related to the service of the Airport-controlled lounge area. There will be a 30-percent ACDBE goal and a 25-percent MWBE goal assigned to this procurement.

**Anticipated Advertisement Date:** June 29, 2016

**Estimated Project Value:** TBD

**Date posted:** May 15, 2016

**Project: Concourse A West / A East / C East Expansion Design**

**Description:** This project is the design to expand the existing Concourse A in both the West and East Directions and Concourse C to the East. The Concourse A West

Expansion will include the design of 10 new contact airline gates and construct 14 new hold-rooms. The Concourse A East expansion will include the design of 12 new contact airline gates with the construction of 15 new passenger hold-rooms. Both expansions will have a basement and two additional sub-cores with commercial concession space and office space available. The Concourse C East expansion will include the design of 10 new contact airline gates and 12 new hold-rooms. There will be a 17-percent M/WBE goal assigned to this opportunity.

**Anticipated Advertisement Date:** November 2016

**Estimated Project Value:** TBD

**Date Posted:** May 19, 2016

### **Project: Concourse A West Expansion - Project Management Team**

**Description:** Provide professional, technical and support personnel to perform project management services for the Expansion of Concourse A-West, which may include but not limited to assisting with planning, design project management, construction project management, and any other support services as required or designated. This project is the construction of an expansion to the existing Concourse A in the West Direction. The Concourse A West Expansion will include the design of 10 new contact airline gates and construction of 14 new hold-rooms. This expansion will have a basement and two additional sub-cores with commercial concession space and office space available. Also included as part of this work is all of the apron paving work required to park and service aircraft at the gates.

**Anticipated Advertisement Date:** September 2016

### **Project: Construction Services - Quality Assurance Inspection**

**Description:** Denver International Airport is soliciting proposals for Construction Services. This contract will provide quality assurance inspection and Special inspection personnel for use on airport projects. The successful proposer will need to demonstrate the ability to provide both full time and seasonal personnel that will work on projects through definition, design, construction and close out. This includes but is not limited to providing qualified personnel for Special Inspections, Lead Inspectors and Inspector personnel. In addition to providing day to day quality assurance inspections as part of several construction management teams and further described below, the Consultant is to be "an approved agency" and be able to provide "qualified persons" to perform Special Inspections as referenced in Chapter 17, Section 1704 of the International Building Code (IBC), and as amended by the latest City and County of Denver Building Permit Policy. As "an approved agency" or Special Inspection Agency the Consultant will also provide material testing services not provided by the DIA material testing laboratory.

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** \$ 65,000,000

**Date posted:** May 19, 2016

**Project: Construction Services- Quality Assurance Materials Testing 2017**

**Description:** Denver International Airport is soliciting proposals for Construction Services. This contract will provide quality assurance materials testing personnel for use on airport projects. The successful proposer will need to demonstrate the ability to provide both full time and seasonal personnel that will work on projects through definition, design, construction and close out. This includes but is not limited to providing qualified personnel for Laboratory Managers, Laboratory Supervisors, Laboratory Testers and Field Testing personnel. It will be the successful proposer's responsibility to obtain and maintain the following laboratory accreditations for the DEN Quality Assurance Laboratory; American Association of Laboratory Accreditations (AALA), AASHTO Materials Reference Laboratory (AMRL), and ASTM Cement and Concrete Reference Laboratory (CCRL).

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** \$25,000,000

**Date posted:** May 18, 2016

**Project: Curbside Management Transportation Services Agreement**

**Description:** Provide curbside management, cab starter services, taxi dispatching, equal access to airport staging & loading areas, and monitor traffic flow in terminal curb loading areas

**Anticipated Advertisement Date:** June 2016

**Estimated Project Value:** \$ 3,600,000

**Date posted:** March 30, 2016

**Project: Financial Advisor Services RFP**

**Description:** The Consultant will provide professional airport system financial and consulting services for the financial and economic management of the Airport and the planning and development of Airport Facilities.

**Anticipated Advertisement Date:** July 25, 2016

**Estimated Project Value:** \$ 2,000,000.00

**Date posted:** April 25, 2016

**Project: Geotechnical Services**

**Description:** Denver International Airport is soliciting proposals for Geotechnical Services. This contract will provide geotechnical services for use on airport projects. The successful proposer will need to demonstrate the ability to provide geotechnical services including, but not limited to, soil borings and sampling, soils assessments, ground water investigation and recommendations for foundations

and subgrade. Specifications for contracts regarding soil conditioning, soil stability, and subgrade may be required. In addition the successful proposer will need to demonstrate the ability to compose clear and concise geotechnical reports that incorporate research into the geology of the area being studied as well as the empirical data gathered in the field and laboratory. There is a 10-percent M/WBE goal established for this opportunity.

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** TBD

**Date Posted:** May 18, 2016

#### **Project: On-Call Construction Auditor Services**

**Description:** On-Call construction audit services of construction and professional service contracts. All projects will be completed by individual task order. Contract term is five (5) years plus two (2) one (1) year options. Contract value is \$5,000,000 encumbered by task order. This project has been reviewed by DSBO and it has been determined that it is not subject to the DSBO Ordinance and therefore will not have an M/WBE goal assigned for this opportunity.

**Anticipated Advertisement Date:** July 2016

**Estimated Project Value:** TBD

**Date Posted:** May 19, 2016

#### **Project: On-Call Electrical Construction**

**Description:** On-Call Electrical construction services consisting of various electrical construction, including, but not limited to power devices, equipment and circuiting, lighting equipment, low & medium voltage, & fire alarms. There is a 35-percent M/WBE goal established for this opportunity.

**Anticipated Advertisement Date:** June 2016

**Estimated Project Value:** \$4,000,000.00

**Date Posted:** March 2016

#### **Project: On-Call Industrial Design Services**

**Description:** On-call industrial design services for miscellaneous engineering issues. The Airport maintains on-call professional design services contracts to provide, mechanical engineering, electrical engineering and cost estimating services on an as needed basis. There is a 20-percent MWBE goal established for this opportunity.

**Anticipated Advertisement Date:** July 18, 2016

**Estimated Project Value:** \$2,000,000.00

**Date Posted:** April 18, 2016

**Project: On-Call Professional Services for Parking Garage Repairs**

**Description:** The Consultant shall provide professional services on an on-call basis to address the repair and moisture protection needs for the DEN parking garages, the Terminal roadways and bridges and other repairs or moisture protection repairs as assigned. The professional work shall include but not be limited to: inspections, reports, investigations, analysis, recommendations, designs, specifications, construction documents, construction administration, and construction inspection.

**Anticipated Advertisement Date:** August 3, 2016

**Estimated Project Value:** \$ 4,000,000

**Date Posted:** June 27, 2016

**Project: Peña Design Build Project**

**Description:** Denver International Airport is soliciting proposals for a design build-build team for the upcoming project on Peña Boulevard. This contract will select a team for design and construction on the Pena reconstruction effort. The design work will include; but is not limited to, roadway design, pavement design, erosion control, structural design of a new structure and the widening of several existing structures, preparation of plan documents and specifications. The construction work will build the new sections of Peña and will follow through to closeout. This project has a MWBE goal of 25-percent Design and 15-percent Build.

**Anticipated Advertisement Date:** September 1, 2016

**Estimated Project Value:** TBD

**Date Posted:** June 2, 2016

**Project: Peña Project Management Team RFP**

**Description:** Denver International Airport is soliciting proposals for a project management team for upcoming major projects on Peña Boulevard. This contract will provide staff augmentation for the roadway and bridge structure work on Pena Boulevard. This includes, but is not limited to, providing a project manager, a design manager, a construction manager and lower level engineers, Contract administrators and auxiliary staff to manage the workload. There will be a 25-percent M/WBE goal associated with this procurement.

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** TBD

**Date Posted:** ---

**Project: Professional Services On-Call**

**Description:** Denver International Airport is currently qualifying firms for addition to a pool of companies with specialized skills that the airport may require from time to time. Projects range in size and across categories, and consultants will be utilized on an on-call basis. Qualified firms and/or individuals interested in providing services to the Airport are invited to submit a Statement of Qualifications.

**Anticipated Advertisement Date:** July 2016

**Estimated Project Value:** \$850,000

**Date Posted:** June 7, 2016

**Project: Project Controls Contract for Project Support and Management**

**Description:** Staff augmentation consultant to provide project controls and management support services, to include: cost estimation; claims analysis; scheduling and schedule analysis; Oracle Primavera Unifier development; and contract administration support. Services are expected to cover a range of project controls and management related functions in support of the Project Management Office and Project Controls using a task order format. Typical examples of positions to be filled, but not limited to, are contract administrators, estimators, schedulers, Unifier application technicians/developer/ administrator. Current systems include Oracle Primavera Unifier and Primavera P6 software project management systems for its project management software applications and expects to enhance these systems further to improve DEN's ability to minimize costs associated with implementation of capital projects. There is a 25-percent M/WBE goal established for this opportunity.

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** TBD

**Date Posted:** May 18, 2016

**Project: Project Management and Support Services**

**Description:** Provide professional, technical and support personnel to perform project management services, which may include but not limited to assisting with planning, design project management, construction project management, and any other support services as required on capital projects designated for such services by the airport. There will be a 25-percent MWBE goal assigned for this opportunity.

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** TBD

**Date Posted:** May 19, 2016

**Project: Project Management and Support Services - Defined Selection Pool**

**Description:** Provide professional, technical and support personnel to perform project management services, which may include but not limited to assisting with planning, design project management, construction project management, and any other support services as required on capital projects designated for such services by the airport. There will be a 20-percent SBE goal assigned for this opportunity.

**Anticipated Advertisement Date:** September 2016

**Estimated Project Value:** TBD

**Date Posted:** May 19, 2016
