LCPtracker: Before the prime/general contractor begins work on a Tenant Finish or other similar project at Denver International Airport, the Prevailing Wage Investigator will use the information provided in the completed Pre-NTP Form to set up the project in LCPtracker, an online payroll reporting system. The prime/general contractor will then input all of the project’s subcontractors. For an overview of LCPtracker, please consult www.lcptracker.net. This online reporting system is not optional.

Owner Operators: Companies in which the owner does hands-on work on the project must complete the **Affidavit - Contractor Performed Work Personally** (Form 73). Appropriate documentation is required with the Affidavit, as noted in the bottom half of Form 73.
